

## Appendix

## 1 Appendix

### Appendix B

Linear mixed-effects models after model selection for Experiment 1:

```
## P1 ~ 1 + part + condition + part:condition + (1 + part | participant)
## N170 ~ 1 + part + condition + part:condition + (1 + part + condition | participant)
## N400 ~ 1 + part + condition + part:condition + (1 + part + condition | participant)
```

Linear mixed-effects models after model selection for Experiment 2:

```
## P1 ~ 1 + part + condition + part:condition + (1 | participant)
## N170 ~ 1 + part + condition + part:condition + (1 + part | participant)
## N400 ~ 1 + part + condition + part:condition + (1 + part | participant)
```

Linear mixed-effects models after model selection for Experiments 1 and 2 combined:

```
## P1 ~ 1 + part + condition + part:condition + experiment + part:experiment +
##      condition:experiment + part:condition:experiment + (1 + part | participant)
## N170 ~ 1 + part + condition + part:condition + experiment + part:experiment +
##      condition:experiment + part:condition:experiment + (1 + part + condition |
##      participant)
## N400 ~ 1 + part + condition + part:condition + experiment + part:experiment +
##      condition:experiment + part:condition:experiment + (1 + part | participant)
```
